

GUITAR OF THE MONTH – MAY 2009

From Tanglewood's Sundance Series comes the stunning **TW45-VS-B** Super Folk Cutaway guitar.

A close cousin of the best-selling TW45-NS-B, this instrument gets high marks for both its impressive tonal character as well as its gorgeous vintage sunburst gloss finish.

The TW45-VS-B responds nicely to open chords and shines on single-note lines, making it a great acoustic lead guitar – perfect for everything from bluegrass shredding to acoustic blues solos!

A B-Band A3T pickup/preamp system ensures that this guitar's clarity and warmth translates when plugged in.

TW45-VS-B
