A truly great couples film from our top erotica couples studio.”

“Forbidden Opportunities” opens with Alexa and Michael who have always dreamt of having a child, but when plans don't go as expected, the two realize they don't have the money to make their dreams a reality. Devastated that they might never be able to start the family they've always hoped for, Michael's boss, Gregory presents the couple with a very tempting financial offer – Alexa must move in with Gregory for the month and take on the role of his wife. What initially seems like a life-changing opportunity becomes the greatest challenge of their lives when Alexa and Gregory's arrangement turns sexual.

“The theme of a couple struggling with having children who then find an answer at the cost of having a third person in their midst is very emotional and very erotic,” St. James said. “Alexa and Mercedes and the rest of the cast had a great affinity for one another and showed real passion and zeal throughout the film! It was beauty, passion and true sexual energy all rolled into one!”
