“Chi Chi LaRue gives viewers an enticing new fauxcest release,” said Mile High Media Vice President Jon Blitt. “Featuring amazing performances, ‘Uncle Bobby’ is an engrossing feature about forbidden lust and the intense passion between older and younger men.”

“Uncle Bobby” follows the story of two stepbrothers, played by Adam Ramzi and newcomer Jake Nicola, who take their young sexy step-nephews out for a weekend away in the big city. Sexual tension grows heavy and after a sweaty session between the two stepbrothers and some sweet sexy play by the two step-cousins, the action really heats up when Uncle Bobby and Uncle Jake find out just how wild the step-nephews can be.

The movie features four intense hardcore sex scenes shot in HD along with animated chapter index, a photo gallery and more.

Movies from Icon Male are unique to the gay marketplace and embody what fans have come to expect from directors Nica Noelle and Dana Vespoli, and Mile High Media – genuine and intimate exchanges between performers featuring forbidden sex, emotion and compelling storyline.

About Mile High Media:

Mile High Media has been a pillar of the adult industry for over 25 years. The Canadian managed company began as a Canadian licensee for American adult movies, ensuring it distributed only the highest quality content. Understanding the diverse and ever changing needs of its consumer base, Mile High determined the best way to provide a wide array of superior entertainment was to produce its own content. In 2003, Mile High launched Doghouse Digital, the first of its acclaimed lines catering to specific niches. Growing market trends and demand led Mile High to then create Sweetheart Video (lesbian line), Sweet Sinner (couple line), Reality Junkies (reality gonzo line), Male Reality (gay reality gonzo line) and recently launched Icon Male (gay romance line) and TransSensual (TS romance line). With over 2500 titles, Mile High's studios yield some of the most viewed adult movies in the world, available on all platforms, including broadcast, IPTV, VOD and mobile applications.
