Proving opposites attract, stunning Jiz Lee seduces curvy Sovereign poolside, driving the beauty into multiple orgasms. Zany beauty Celeste Star tries to turn on boyish Alani, as the cute butchy girl works to fix Celeste's car. Tomboi Raven works to convince girly girlfriend Jodi to come out to her parents, plying her with mind-blowing orgasms in the process. Finally Nina and Lily go at it, showing everyone why they made it all the way to the Mile High Madness championship round.

Originally part of Mile High Madness' 64 pairing field, Nina Hartely and Lily Cade continually rolled over their opposition round after round, as fan votes poured in from Twitter, Facebook, forums, and email. In the final round, the sexy girl/girl pairing narrowly lost to overall champions Magdalene St. Michaels and Giovanni Francesco. As a result of the contests popularity, it is nominated for Marketing Campaign of the Year at the 2014 XBIZ & AVN Awards.

"It's extra special any time you get to film a scene you know fans have been clamoring for," says Vespoli. "As each round went by in Mile High Madness, I noticed the strong fan support for Lily and Nina, which really

got me excited. I immediately knew this would be the perfect movie to feature their scene in.”

The Canadian managed company began as a Canadian licensee for American adult movies, ensuring it distributed only the highest quality content. Understanding the diverse and ever changing needs of its consumer base, Mile High determined the best way to provide a wide array of superior entertainment was to produce its own. In 2003, Mile High launched Doghouse Digital, the first of its acclaimed lines catering to specific niches. Growing market trends and demand led Mile High to create Sweetheart Video (lesbian line), Sweet Sinner (couple line), Reality Junkies (reality gonzo line), Hardcore Parody (parody line) and Sweet Sinema (classic Hollywood adaptation line). With over 1500 titles, Mile High’s studios yield some of the most viewed adult movies in the world, available on all platforms, including broadcast, IPTV, VOD and mobile applications.
