The third installment of the popular series features gorgeous feminine lesbians and their hot, butch counterparts. Cute, butch Nikki breaks off her affair with girly-girl Aaliyah, only to sneak back for one last passionate tryst. Homophobic Natalia experiences odd sexy stirrings as she is partnered with her new lesbian trainer, Sinn. Voluptuous Valentina and androgynous Lily show us a meditation on the end of an affair through images of romance, distance, and lovemaking. Finally, prissy Gabriella confronts her loud, butch housemate, Ash, in what becomes a clash of epic, sexy proportions.

“I really wanted to capture the gorgeous dichotomy of a butch/femme lesbian relationship in this series,” says Dana Vespoli. “Pairs like Valentina and Lily show off some of the various power dynamics, though it’s not always what you might think.”

Sweetheart Video’s goal is to create original, innovative girl / girl erotica for the discerning viewer. Sweetheart films are storyline-driven, carefully cast, and always containing real sexual encounters between women who truly want to be together.

About Mile High Media:

Mile High Media has been a pillar of the adult industry for over 20 years. The Canadian managed company began as a Canadian licensee for American adult movies, ensuring it distributed only the highest quality content. Understanding the diverse and ever changing needs of its consumer base, Mile High determined the best way to provide a wide array of superior entertainment was to produce its own. In 2003, Mile High launched Doghouse Digital, the first of its acclaimed lines catering to specific niches. Growing market trends and demand led Mile High to create Sweetheart Video (lesbian line), Sweet Sinner (couple line), Reality Junkies (reality gonzo line), Hardcore Parody (parody line) and Sweet Sinema (classic Hollywood adaptation line). With over 1500 titles, Mile High's studios yield some of the most viewed adult movies in the world, available on all platforms, including broadcast, IPTV, VOD and mobile applications.
